

# **10kW Mobile Energy Storage Container for Subway Stations**

## Overview

---

How many battery storage projects does power Edison have?

Power Edison has a development and sales pipeline of over 1GWh of battery storage projects. Power Edison, the leading developer and provider of utility-scale mobile energy storage solutions, has been contracted by a major U.S. utility to deliver the system this year.

What is mobile energy storage?

Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.

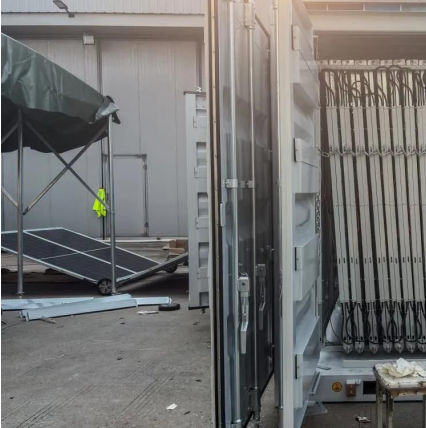

How many megawatts of battery storage will be installed this year?

According to Bloomberg New Energy Finance, 750 megawatts of battery storage is forecast to be installed globally this year, up from 160 megawatts in 2014. Kuran, who previously headed storage businesses at NRG and SunEdison, said the key to his strategy is making batteries easier to move.
