

120kW Foldable Container for Environmental Protection Project

Overview

How many items are on the government green procurement list?

At present, the number of items on the Government green procurement list with green specifications has been expanded to 183 items with 24 product and service categories. While they are commonly used by bureaux and departments, the public are welcome to use or make reference to them for adopting green procurement.

What is the Sustainable procurement guide?

The Sustainable Procurement Guide provides the steps for embedding environmental sustainability within all government procurements. It is designed for officials in non-corporate Commonwealth entities and prescribed corporate Commonwealth entities listed in s30 of the Public Governance, Performance and Accountability Rule 2014.

What is sustainable public procurement?

Sustainable public procurement represents one of the most powerful demand-side solutions for achieving sustainable consumption and production. By harnessing the collective purchasing power of governments worldwide, we can create market incentives that drive systemic change toward sustainability.

What is the environmentally sustainable procurement policy?

That is why we have introduced the Environmentally Sustainable Procurement Policy, which takes effect in two stages from 1 July 2024 and 1 July 2025. Sustainable procurement policies give businesses the confidence they need to make their products and services more sustainable, knowing there will be the demand to sustain it.
