

15w solar panel with 15w water pump

Overview

What are the advantages of solar water fountain pump?

□15W Glass Solar Panel□With 15W high quality glass monocrystalline silicon solar panels, AMZtime solar fountain pump are more efficient and have a longer service life than traditional solar panels. In addition, the solar water fountain enables the solar pump to work continuously and stably.

How to use a solar water pump for a fountain?

The long cord allows you to freely place the solar panel far away from the solar power pump. □Easy to Use□Just put the solar powered fountain pump into the water, the stronger the sunlight, the better the effect, the solar water pump for fountain will show you an unexpected beauty. There is no need for complicated installation and more investment.

How does a solar water fountain work?

In addition, the solar water fountain enables the solar pump to work continuously and stably. The water flow and the height of the water jet depend on the intensity of the sunlight. The more sunlight, the bigger and higher the water jet.
