

1MWh Solar Containerized Container Used on Conakry Island

Overview

What is pknergy 1MWh battery energy solar system?

The PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. Housed within a 20ft container, it includes key components such as energy storage batteries, BMS, PCS, cooling systems, and fire protection systems.

What is a 1MWh Battery Energy Storage System?

A 1MWh Battery Energy Storage System, such as PKENERGY's 20ft container solution, stores energy equivalent to 1 megawatt-hour. It includes 5 clusters connected to a 500kVA power conversion system (PCS) for output at 340-440VAC. The system also includes a 500kW three-phase inverter with a 98.3% conversion efficiency and a 300kW inverter for DC to AC conversion.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
