

2kWh solar container outdoor power kit

Overview

How much power does a 2KW Solar System produce?

Our 2 kW solar systems feature DIY solar kits, which will produce at least 2kW (or 2,000 watts) of power. This translates to approximately 175 to 375 kilowatt-hours (kWh) per month depending on your system choice, location and other factors. Choose between a 2kW solar kit with microinverters and a 2.4kW off-grid kit.

What is a 2KW solar conversion kit?

2kW solar conversion kit is a complete setup with solar panel, solar charge controller, and other solar accessories. Have a look below to see detailed specifications of this solar conversion kit. #4. On-Grid 2kW Solar System This solar system is specially designed for working with utility grid.

What are the benefits of a 2KW Solar System?

Customers can benefit from significant energy savings, reducing reliance on traditional utilities and resulting in lower bills. Be the first to write a review This 2kW complete off-grid kit is perfect for homes, offices, and cabins. Kit includes: 2kW solar panels, 10.24kWh batteries, 5kW inverter charger - Easy to Install & 5 Year Warranty.

How much space does a 2KW Solar System need?

A 2kW solar kit from GoGreenSolar requires about 107 square feet of space. Solar panels with microinverters allow you to place panels in various locations, directions and angles on your roof. This choice will offer you more flexibility if space is at a premium.
