

40kWh Solar-Powered Container Used at Serbian Drilling Site

Overview

Can Serbia build a solar power plant?

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total connection capacity of 1,000 MW (1,200 MW in nameplate capacity), along with battery systems for electricity storage of up to 200 MW/400 MWh. The signing will be followed by talks on financing terms.

How will solar projects be supported in Serbia?

The projects will be supported through contracts for difference for 15 years. The Serbian government has allocated a quota of 50 MW for its first solar auction. Solar plants with capacity of more than 500 kW will be allowed to participate in the competitive tendering process, with the ceiling price set at €90 (\$96.10)/MWh.

Will Serbia buy a part of the wind industry?

He also announced that Serbia intends to buy a part of the wind industry that has gone into private hands, in order to ensure this electricity remains in the country, instead of being exported. Adam Cortese (photo: Aleksandar Vučić/Facebook)
