

50kW Solar Storage Container Used at South African Airport

Overview

Where will solar PV plants be located in South Africa?

Image: Olga Ernst, Wikimedia Commons Airports Company South Africa (ACSA) has issued a tender for three solar PV plants to be located at three different airports in the country. The three proposed projects will be based at Tambo International Airport, King Shaka International Airport, and Cape Town International Airport.

Which South Africa airports have a solar PV tender notice?

Pic: King Shaka International Airport - Durban, South Africa. Image credit: ACSA The state-owned Airports Company South Africa (ACSA) has issued tender notices for solar PV plus battery plants at six of its airports. Solar PV Tender number: COR7739/2025/RFP.

Will King Shaka International Airport install a solar PV plant?

The King Shaka International Airport project encompasses the installation of a 2,000 kW roof-mounted solar PV plant. It will include a five-year maintenance contract for the works, but this will be priced separately.

What is a 50kw Solar System?

A 50kW solar system is a high-output solar power solution that can produce around 200–250 kWh of electricity per day, depending on your location, solar panel quality, and installation angle. This type of system is perfect for: A typical 50kW solar system includes:
