

50kW collapsible shipping container used in US fire stations

Overview

Are shipping containers good for firefighter training?

Shipping containers for firefighter training offer a solution by equipping fire departments with affordable, durable training facilities. They help firefighters develop critical firefighter skills like search and rescue, hose handling, and flashover awareness.

Who can use containerized fire training structures?

Our containerized fire training structures can serve a wide range of industries requiring fire and safety training including airline, military, oil and gas, petrochemical, fire departments, and training academies.

What types of fire training technologies can a container structure accommodate?

Our container structures can be designed to accommodate any and all of our proprietary fire training technologies (digital, gas fueled and carbonaceous). Enhance your training by including tactical elements such as forcible doors, cold cut panels and backdraft indicators in your design.

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.
