

# **50kw electric energy storage cabinet**

## Overview

---

What is energy cube 50kw-100kwh C&I ESS?

Energy Cube 50kW-100kWh C&I ESS integrates photovoltaic inverters and a 100 kWh energy storage system. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protection system, distribution system, thermal management system, and energy management system. This achieves an integrated "PV + Energy Storage" solution.

What is PV & energy storage?

This achieves an integrated "PV + Energy Storage" solution. The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, batteries, and loads, meeting various user-side applications. During periods of low electricity prices, use the grid to charge the devices.

How does a solar cabinet system work?

The cabinet system adopts a modular design, allowing flexible configurations for photovoltaic, batteries, and loads, meeting various user-side applications. During periods of low electricity prices, use the grid to charge the devices. During periods of high electricity prices, discharge the batteries to power the load.
