

ASEAN Electrical Energy Storage Project

Overview

How will ASEAN accelerate energy transition efforts?

The ASEAN Member States will accelerate energy transition efforts by setting a more aggressive energy intensity reduction target of 32% by 2025 based on 2005 level.

How to achieve the full potential of the ASEAN Power Grid?

To achieve the full potential of the ASEAN Power Grid, the development of the power generation mix, technological innovations and transmission technologies are needed to be well embedded in the joint planning of infrastructure development.

What infrastructure projects are under ASEAN Energy Cooperation?

Another important infrastructure project under the framework of ASEAN Energy Cooperation is the Trans-ASEAN Gas Pipeline (TAGP), which focuses on gas pipelines and liquefied natural gas.

What is the ASEAN nuclear energy portal?

Likewise, ACE developed the “ASEAN Nuclear Energy Portal” as an information sharing and exchange platform. The portal, which provides links to journals and research papers relevant for the development of civilian nuclear energy in ASEAN, will be integrated with the ASEAN Energy Database System (AEDS) in the APAEC Phase II.
