

Amsterdam solar container communication station lithium- ion battery control screen

Overview

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

What is a lithium safety container?

Discover the ultimate in lithium battery safety with our innovative lithium safety containers. Designed to provide unmatched protection, our containers offer peace of mind for the safe storage and transportation of lithium batteries. Explore our range now for industry-leading safety solutions.

What is a battery management system?

Energy Management: The battery management system is responsible for managing the flow of electricity between the batteries and the grid. It can store excess electricity generated during off-peak hours and release it during peak hours when there is high demand for power. This can help to reduce energy costs and increase energy efficiency.

What is a plug & play lithium-ion battery storage container?

Plug&Play lithium-ion battery storage container; Various usage scenarios of on-grid, off-grid, and micro-grid. All-in-one containerized design complete with LFP battery, bi-directional PCS, isolation transformer, fire suppression, air conditioner and BMS; Modular designs can be stacked and combined.
