

Antananarivo Energy Storage BESS Price Query

Overview

How much does a Bess system cost?

As of most recent estimates, the cost of a BESS by MW is between \$200,000 and \$450,000, varying by location, system size, and market conditions. This translates to around \$200 - \$450 per kWh, though in some markets, prices have dropped as low as \$150 per kWh. Key Factors Influencing BESS Prices.

How much does Bess cost in China?

It is nonetheless still eye-opening to note just how big those differences in cost are. The average for a turnkey system in China including 1-hour, 2-hour and 4-hour duration BESS was just US\$101/kWh. In the US, the average was US\$236/kWh and in Europe US\$275/kWh, more than double China's average cost.

Will a 60% tariff increase energy storage costs?

"What we found is that with the 60% tariff, the cost [of a turnkey energy storage system] increases by 60% compared to 2025, so this is quite a big cost jump if the US actually decided to do so," Kikuma says.
