

Are there any manufacturers producing 5G base stations in India

Overview

Which Indian companies are driving the 5G transformation?

This blog explores the leading Indian companies that are driving the 5G transformation by manufacturing critical equipment. From Sterlite Technologies' cutting-edge fiber optics to HFCL's 5G routers, and Tejas Networks' backhaul solutions, these companies are shaping the future of India's telecom landscape.

Who makes 5G routers in India?

ITI Ltd. Established in 1948, ITI Ltd. is one of India's oldest telecom equipment manufacturers and a government-owned entity. Over the years, ITI has evolved its product portfolio to include 5G routers, switches, and other networking equipment, positioning itself as a key player in India's 5G landscape.

Who makes 5G backhaul equipment?

3. Tejas Networks Ltd. Founded in 2000, Tejas Networks is a leader in designing and manufacturing telecom networking equipment, focusing on 5G backhaul solutions. These backhaul solutions ensure smooth data transmission from mobile towers to the core network.

Does Indus Towers manufacture 5G equipment?

Although Indus Towers, established in 2007, does not manufacture telecom equipment directly, its extensive tower network is essential for 5G deployment in India. Telecom operators, such as Bharti Airtel and Reliance Jio, rely on Indus Towers for the infrastructure required to deliver 5G services.
