

# **Australia Sydney Energy Storage Power Supply Procurement Project**

## Overview

---

Can long-duration storage projects be supported by the NSW electricity infrastructure roadmap?

Long-duration storage projects can bid for financial support under the new NSW Electricity Infrastructure Roadmap Tender 5 which is now open. This tender offers support for up to 1 gigawatt of projects, which can each release energy into the NSW grid for at least 8 hours.

Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.

What is Australia's largest procurement of grid-forming battery technology?

The transmission network operator revealed that the tender process will seek proposals from battery storage projects that provide approximately 1GW of stabilising services, representing what it claims will be Australia's largest procurement of grid-forming battery technology to date.

What is the NSW electricity infrastructure roadmap?

The tender represents the seventh round under the NSW Electricity Infrastructure Roadmap, which has secured significant investment in new generation and storage infrastructure across the state.
