

Austria industrial-grade UPS uninterruptible power supply

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) can support power-heavy devices and ensure sustained access to a power supply in the event of a power outage. During power failures, an industrial UPS power backup can provide critical infrastructure with enough power to operate and backup data until the restoration of the main power supply.

How to choose an industrial UPS system?

Choose one with protection from power surges, lightning, spikes and other disruptions. Management - Monitor the status of the industrial UPS system with status indicators, and manage the battery life through customised capabilities and intelligent charging.

What is a Gustav Klein UPS system?

Gustav Klein UPS systems are equipped with a colour touch screen display and consist of the components: Supports consumption-optimized networks (input THDi \leq 6%, hardly any reactive power consumption, battery test by means of mains regeneration and full UPS power).

How many UPS & battery systems have been installed in Switzerland?

More than 30'000 UPS and battery systems have been successfully delivered, installed and are in operation at more than 3'000 clients in more than 100 countries. This success is based on traditional Swiss values that focus on technical excellence and quality in all areas of operation. We welcome you to be part of it.

Austria industrial-grade UPS uninterruptible power supply

UPS

Buy UPS - Uninterruptible Power Supplies. Farnell Austria offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.
