

# **BESS sells brand new uninterruptible power supply at wholesale solar container price**

## Overview

---

How many MWh can a Bess system store?

This system, designed as a 2-split containerized BESS solution, can be stacked to deliver a cumulative energy storage capacity of up to 9 MWh, according to Spinnen. A company statement on its official website highlights that the system is equipped with CATL's high-energy-density cells featuring up to 5 years of zero degradation.

What does Bess stand for?

(Photo Credit: CATL) During the recent Intersolar Europe 2025, a few well-known companies showcased their latest megawatt (MW) scale battery energy storage system (BESS) targeting Europe's growing utility-scale PV + storage market.

How tall is a Bess system?

With an overhead louver, this stacked BESS system has a height of 4.7 meters and a 2-meter head width. Enhancing the BESS system's compatibility and system efficiency, it supports both centralized and string Power Conversion System (PCS), targeting Europe's application scenario, utility-scale PV + storage projects. Transportation.

What are the advantages of a stacked Bess system?

Compared to traditional 20-foot containers, it achieves up to a 45% improvement in volume utilization and a 50% increase in projected energy density. With an overhead louver, this stacked BESS system has a height of 4.7 meters and a 2-meter head width.
