

# **Baku 5G solar container communication station wind power construction project**

## Overview

---

Why should Azerbaijan invest in solar & wind projects?

Today's groundbreaking of Masdar's and SOCAR's jointly developed solar and wind projects represents a significant milestone in Azerbaijan's energy journey. These initiatives underscore our commitment to diversify our energy sources and advance our sustainable development goals.

Why should Azerbaijan build 3 GW power stations?

Laying the foundation of 3 stations with a capacity of 1 GW is not only a first in the field of green energy in Azerbaijan, but also a bright indicator of our solidarity and commitment to the energy transition for the sake of the green world as COP host countries.

When will Azerbaijan's 230 MW Garadagh solar plant be built?

The groundbreaking follows Masdar's completion of the 230MW Garadagh solar plant in October 2023, Azerbaijan's first foreign investment-based independent solar power project, and the largest solar plant in the region.
