

# Battery cabinet automatic feeding device

## Overview

---

Which automatic feeding system is suitable for automatic battery cage poultry farms?

FAMtech manufactures and sells fully automatic feeding systems suitable for automatic battery cage poultry farms. Our automatic feeding system consists of three types, which can be applied to our various cage solutions according to the needs of customers. Place of origin: Henan Province, China.

What is famtech automatic chicken feeding system?

FAMtech automatic chicken feeding system is a piece of cage-mounted feeding equipment. It is a supporting device specially designed for the multi-tier battery cage system. Driven by electricity, it can achieve automatic reclaiming and automatic feeding. Usually, a row of chicken cages needs to be equipped with an automatic feeder.

What is automatic chicken feeding system?

The invention of the automatic chicken feeding system breaks this bottleneck, liberates the breeding personnel from heavy labor, and realizes a faster, more efficient, and more economical feeding process. FAMtech automatic chicken feeding system is a piece of cage-mounted feeding equipment.

What is H-type automatic chicken battery cage system?

H-type automatic chicken battery cage system comes from its H-frame structure, it is a high-density poultry breeding system. It can save labor costs, land, and reduce construction investment and management costs. It is an ideal choice for intensive large-scale poultry farms.
