

Belize solar Communication Battery Cabinet Integration System

Overview

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Is a grid-tie Solar System a viable option?

If your monthly electricity bill exceeds BZD 500 and your energy consumption is mostly during the day, then adding a grid-tie solar system with or without battery back-up is more economically viable than going completely solar off-grid. Will my grid-tie solar system stay on during a grid outage?

.

Does Bel pay for excess electricity?

BEL presently provides compensation for excess electricity fed into the grid, applied as a credit to customers' accounts.
