

# **Bissau solar container communication station inverter not approved**

## Overview

---

Do Chinese solar power inverters have undocumented communication devices?

However, undocumented communication devices have reportedly been found in some Chinese solar power inverters. And over the past nine months, such devices—including cellular radios—have also been found in some batteries from Chinese suppliers.

Are non-compliant Inverter models still eligible for STCs?

Non-compliant inverter models have been removed from the approved products list. Check the approved product list to ensure your inverter models are still eligible for small-scale technology certificates (STCs). Search the Clean Energy Council's list of approved inverters.

Are Chinese-made solar inverters a supply-chain vulnerability?

Leading renewable energy operators worldwide are confronting a disturbing supply-chain vulnerability: undocumented communication modules found in Chinese-made solar inverters and batteries.

Do Chinese solar power inverters have a firewall?

While such inverters allow remote access for updates and maintenance, utility companies usually install firewalls to block direct communication back to China. However, undocumented communication devices have reportedly been found in some Chinese solar power inverters.
