

Black Mountain Environmental Protection Solar Energy System Application

Overview

Who is Black Mountain?

Agile, visionary, and well-funded, Black Mountain is an entrepreneurial community of energy operators that specialize in identifying and capturing high-growth opportunities in the global energy sector. Collectively, we have decades of expertise in sourcing, developing, and operating assets worldwide with a track record of delivering strong returns.

Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.

How much money has Black Mountain invested?

Since 2007, Black Mountain has built several companies, collectively evaluated >\$25 billion of exploration and production acquisition, and successfully invested over \$900 million in rewarding ventures. When you make bold steps or shift your perception, you gain a fresh outlook.
