

# **Bolivian Flow Batteries**

## Overview

---

How will the global flow battery market grow?

The global flow battery market is expected to experience remarkable growth over the coming years, driven by increasing investments in renewable energy and the rising need for large-scale energy storage systems.

Can lithium be used as a 'commodity' in Bolivia?

The installation of LIBs for universal access to energy in Bolivia, opens a new path of development. It takes lithium out of its “commodity status”, to be used as close as possible to the resource, without going through global markets.

Which companies have been shortlisted for lithium pilot plants in Bolivia?

Yacimientos de Litio Boliviano (YLB) has shortlisted four companies for lithium pilot plants in Bolivia’s salt flats. The bidders are China’s CBC, Italy’s Protecno, France’s Eramet, and Australia’s Eau Lithium. These companies were selected based on technological maturity, financial propositions, technical parameters, and project execution time.

What is a flow battery?

A flow battery is a type of rechargeable battery that stores energy in liquid electrolyte solutions contained within tanks. Unlike traditional lithium-ion or lead-acid batteries, flow batteries offer longer life spans, scalability, and the ability to discharge for extended durations.
