

British RV Solar System Manufacturers

Overview

Where can I get solar panels fitted for my motorhome?

At Motorhome Workshop, you'll find a one-stop solution for your off-grid power needs, so you can have motorhome solar panels fitted with confidence and convenience. We offer solar panels on a supply + fitting basis, for all types of motorhomes, campervans and caravans. Our range of 12v kits shown below, all include fully warrantied panels.

Are campervan solar panels worth it?

Campervan solar panels are usually sold in kits and can give you good value for money. Solar panels are just one component of the solar power system for your campervan, and you must consider the leisure battery, charge controller and wiring. Each part must be of similar quality to get the most out of your solar panels.

What solar panels do you need for a campervan?

The most common solar panel kit for campervans in the UK is around 80 Watt, which will be suitable for most applications. Flexible solar panels often mean you can avoid the need for drilling holes into the roof, but rigid models work just as well.

Can a rigid framed solar panel be installed on a motorhome?

Fitting rigid framed solar panels to the roof of your motorhome. We strongly suggest that you consider using a rigid framed solar panel fixed permanently to the roof of your motorhome. This is the most cost effective type of solar panel and they come in a range of sizes to suit all situations.
