

Brussels outdoor communication battery cabinet testing company

Overview

Who owns the largest battery testing capacity in Belgium?

The Battery Innovation Centre owns and operates the largest Belgian battery testing capacity: For a detailed overview, please visit the Battery Innovation Centre Infrastructure-page. Our Battery Innovation Centre is regularly placed at the disposal of organizations and private companies for testing, simulation, prototyping and proof-of-concept.

What is Mobi's battery Innovation Centre?

MOBI's Battery Innovation Centre is the main Belgian expertise centre for research and development of energy storage systems for traction and stationary applications. It offers state-of-the-art facilities, tools and solutions for the energy storage systems market.

Why should you choose a battery testing lab?

The battery testing lab adheres to the international quality, environmental and security standards ISO 9001, ISO 14001 and OHSAS 18001. You get to rely on our experience in developing custom testing procedures equivalent to cycles in real applications. Our experts will help you turn your test results into advice for a specific application.

What testing systems are available in our battery labs?

Our Battery Labs have shock and vibration testing systems with a maximum force vector of 120 kN, mounting surfaces of 1.20 x 1.20 m and a maximum load of up to 1,000 kg. Shaker tests are also possible under thermal and climatic superposition with simultaneous loading/unloading.
