

# **Bulgaria home solar container battery production**

## Overview

---

How much will Bulgaria spend on battery storage projects?

Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion levs (\$675 million) under its EU-funded procurement exercise named RESTORE.

How many projects have been submitted to the Bulgarian Ministry of energy?

The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals worth nearly BGN 5 billion, which far exceeded the available funding of BGN 1.154 billion. Of the submitted proposals, 118 projects-totaling BGN 1.6 billion-were shortlisted.

How many MWh will a battery energy storage system deliver?

The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 GWh originally set by the tender. The deadline for submission of standalone battery storage project proposals was December 5, 2024.

When will the Bulgarian electricity network be operational?

All investments must be implemented and the facilities connected to the electricity transmission or distribution networks on the territory of Bulgaria and put into operation by March 2026.
