

Burkina Faso power storage vehicle manufacturer

Overview

Where are electric cars made in Burkina Faso?

At the end of January 2025, Burkina Faso's ITAOUA Group launched its first electric car assembled locally. The electric vehicle (EV) is produced at a state-of-the-art facility in Ouaga, an area in the southern part of the capital city of Ouagadougou. The model is branded as Sahel and has its sights set firmly on the region.

Is Burkina Faso a leader in Africa's EV market?

This innovation marks Burkina Faso's entry into the growing African EV market, positioning the nation as a key player in the continent's transition to clean energy transportation. According to Sputnik Afrique, the ITAOUA EV is fully electric and solar-powered, offering an environmentally friendly alternative to traditional fuel-based vehicles.

Why is Burkina Faso launching its first fully indigenous EV?

Burkina Faso has made a bold entrance into the electric vehicle (EV) market with the launch of its first fully indigenous EV, the ITAOUA. This innovation, unveiled recently, represents a significant step forward for the country and the continent in embracing sustainable mobility solutions.
