

# Cambodia Household Energy Storage Subsidy

## Overview

---

What is Cambodia's energy sector development policy?

117. Regarding the energy sector, Cambodia's National Energy Sector Development Policy, established in 1994 (footnote 23),<sup>67</sup> stipulates the government's main goals for an adequate, affordable, and sustainable energy supply in support of economic development.

Does Cambodia need a more cohesive energy sector strategy?

38. Cambodia requires a more cohesive energy sector strategy linking policies and physical infrastructure plans (including generation, transmission and distribution) to support further economic growth and competitiveness.

How to reduce electricity prices in Cambodia?

Cambodia needs to continue its grid expansion plans and complete its electricity access agenda to bring modern energy services to the whole population and further lower electricity prices on par with its neighbors. 41. Increased connectivity and cooperation across the GMS could help Cambodia further reduce electricity prices.

What is ADB's energy sector strategy for Cambodia?

As the country still lacks a comprehensive national energy policy, ADB's energy sector strategy for Cambodia is based on the 2015 PDP, the IDP, and national climate change commitments. 159. Mobilizing substantial financing is a key challenge the government must overcome if it wishes to meet its plans and targets for the energy sector.
