

# **Camping power station factory in Cameroon**

## Overview

---

When was the first hydroelectric power station built in Cameroon?

The first hydroelectric power stations in Cameroon were inaugurated in 1929 to supply electricity to the Muyuka region as a private operation.

Which power station in Cameroon has the largest electricity generation capacity?

Song-Loulou is the power station with the largest installed electricity generation capacity in Cameroon, boasting 384 MW since 1981. Situated upstream of Edéa, it connects to the southern interconnected grid (RIS).

Why is Cameroon building 50 mini hydroelectric power plants?

Cameroon has initiated a comprehensive program to construct 50 mini hydroelectric power plants. This strategy, backed by a public-private partnership, aims to improve the quality of electrical service and reduce the production costs associated with diesel-fired thermal power plants, which significantly burden the public finances .

Will Cameroon have a solar power plant?

The Maroua and Guider power plants, Cameroon's first public solar project with a combined capacity of 30 MW, were commissioned by MINEE in September 2023. Additionally, a 20 MW solar power plant is planned for the city of Garoua.
