

Canberra Electrochemical Energy Storage

Overview

Will a 250 MW / 500 MWh battery energy storage system 'future proof' Canberra?

The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help “future proof” the Australian Capital Territory’s energy supply by reducing the load on Canberra’s electricity network and increasing network reliability.

Will a big battery power Canberra?

The government said the big battery project will be capable of responding rapidly to network constraints and will be able to store enough renewable energy to power one-third of Canberra for two hours during peak demand periods. The Williamsdale battery will be developed, built and operated by Macquarie Group offshoot Eku Energy.

What is the Big Canberra battery project?

The Big Canberra Battery project will provide renewable energy security across the electricity grid. It will help grow the ACT’s renewable energy sector, provide more local employment opportunities, and deliver a positive financial return for the territory. Building a cleaner future.

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.

Canberra Electrochemical Energy Storage

[Eku Energy breaks ground on ACT's biggest ...](#)

Nov 22, 2024 · Eku Energy has started constructing a 250MW/500MWh battery energy storage system (BESS) in Canberra, the Australian Capital ...

[Australia: Eku Energy Secures 250 MW for ...](#)

3 days ago · Eku Energy has closed financing for its 250 MW/500 MWh storage system in Canberra to enhance energy security and support ACT ...

[The Big Canberra Battery , Williamsdale ...](#)

5 days ago · Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical ...

[Milestone for Big Canberra Battery](#)

Jul 23, 2024 · The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will be able to deliver this power for

two ...

[The Big Canberra Battery , Williamsdale Energy Storage ...](#)

5 days ago · Battery storage integration with the grid will ensure the continued growth of renewable energy in australia For technical specifications of our work on the Big Canberra ...

[Australia: Eku Energy Secures 250 MW for Storage in Canberra](#)

3 days ago · Eku Energy has closed financing for its 250 MW/500 MWh storage system in Canberra to enhance energy security and support ACT climate targets.

[Milestone for Big Canberra Battery](#)

Jul 23, 2024 · The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third of Canberra's peak electricity demand. It will ...

[Canberra could become its own giant battery new study says](#)

Jul 26, 2025 · The cost of power storage infrastructure, such as battery and pumped hydro projects, has been a hurdle for achieving renewable energy goals. However, a new study from ...

Advancing Canberra's Energy Landscape with Community Battery Energy

Jan 13, 2025 · With a \$1.5 million investment and support from Evoenergy, Canberra's electricity distribution network service provider, the new project aims to bring energy storage closer to ...

Macquarie's Eku gets green light for 500 MWh Canberra big ...

Jul 23, 2024 · The way has been cleared for construction to begin on a 250 MW / 500 MWh battery energy storage system that will help "future proof" the Australian Capital Territory's ...

Canberra begins construction of battery energy storage system

Nov 27, 2024 · The Australian Capital Territory (Act) Government and global energy storage firm Eku Energy have begun construction on the Williamsdale Battery Energy Storage System ...
