

Canberra completes energy storage power station

Overview

How many megawatts will a battery deliver in Canberra?

The Government says the battery will deliver at least 250 megawatts of power, enough stored renewable energy to supply one-third of Canberra for two hours during peak demand.

How will the Big Canberra battery project benefit the Act?

The battery operator will be selected later this year process. “The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT grow its renewable energy sector, provide more local employment opportunities, and deliver a positive financial return for the Territory,” Mr Barr said.

How much energy will a large-scale battery energy storage system provide?

The large-scale battery energy storage system (BESS) will provide at least 250 megawatts (MW) of power. This is enough energy to power one-third of Canberra for two hours during peak demand periods. This stored energy will be used to support our electricity grid.

What is the Williamsdale battery energy storage system?

The Australian Capital Territory (ACT) government and Eku Energy have commenced construction of the Williamsdale Battery Energy Storage System (BESS), a 250 MW/500 MWh project under the ACT Government’s Big Canberra Battery initiative.

Canberra completes energy storage power station

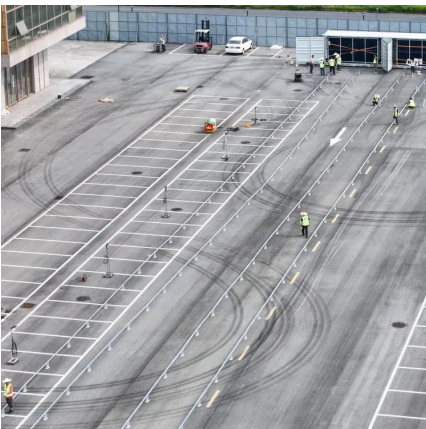

Canberra's biggest battery gets green light , Region Canberra

May 9, 2025 · A 300 megawatt battery proposed in West Belconnen will go ahead after winning ACT planning approval, despite concerns about its impact on native woodland and grassland. ...

[Big clean energy delivery for Canberra](#)

Sep 6, 2025 · The ACT Government has taken delivery of its Big Canberra Battery transformer, which is set to ensure stored electricity is converted to the correct voltage to be safely supplied ...

[Big clean energy delivery for Canberra](#)

Sep 6, 2025 · The ACT Government has taken delivery of its Big Canberra Battery transformer, which is set to ensure stored electricity is converted ...
