

Canberra solar Panels

Overview

In this guide, you'll find up-to-date details on solar system pricing, potential solar energy generation specific to Canberra's conditions, and the latest rebates and incentives available to homeowners in the ACT. Do you need a solar company in Canberra?

Solar panels are an increasingly popular feature in many homes. With the opportunity to offset upfront costs with savings on your energy bills, solar panels are beginning to seem like a no-brainer for many Canberrans. To help you take advantage of solar power, you need a reliable solar company to install your panels and system.

How many solar panels are installed in Canberra?

Over 11,281 small-scale systems have been installed in Canberra, ACT with a collective capacity of 10,631 kW. Around one in ten households in Canberra, ACT, generates solar power through rooftop installations, contributing to the territory's goal of reaching and maintaining 100% renewable energy.

What types of solar power systems are available in Canberra?

We offer five levels of solar power systems in Canberra to ensure every customer can generate the amount of solar power that they require. 3kW Solar System : This system size typically includes 8 to 12 panels and produces between 10 and 13kWh daily.

How much does a 5kw Solar System cost in Canberra?

The cost of a 5kW solar panel system will depend on the quality of panels and inverter installed and the company doing the job. For the 6kW solar system in Canberra ACT (the most popular size Australia-wide), the average cost in Canberra is around \$7,387. The table below shows the average cost of solar PV systems of different sizes in Canberra.
