

Cape Town Electrochemical Energy Storage Station

Overview

How does Cape Town support decarbonisation of electricity?

ties and the City of Cape Town's Energy Strategy
THE KEY AREAS OF ALIGNMENT INCLUDE: Decarbonisation of electricity is evidenced through the City of Cape Town's delivery and support of new renewable energy sources (whether owned or procured by the City or from the private sector) to reduce the local grid emissions factor. This is.

What is Cape Town's energy strategy?

TY OF CAPE TOWN
FOREWORD FROM THE EXECUTIVE MAYOR
With this Energy Strategy, Cape Town is charting the long-term path to 2050, as we make the great transition from centralised supply of unreliable, costly and fossil fuel-based Eskom energy, to an increasingly decentralised supply of reliable, cost-effective, carbo.

Who owns the Red Sands battery energy storage system?

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in June 2025 in Cape Town.

How is Cape Town preparing for the wholesale electricity market?

offered by energy trading platforms and wheeling. With significant shifts expected in the short term with regard to how the wholesale electricity market operates in South Africa, the City of Cape Town is preparing itself as a utility to be a valuable contributing member of this market to both manage risks
