

Cape Town Solar Energy Storage Power Station

Overview

Will Cape Town own a solar plant?

The city of Cape Town, South Africa, has started building a 7 MW solar plant that it will own and operate. It has also launched a tender for a 5 MW/8 MWh battery energy storage system to be built at the same site. Cape Town is set to become the first city in South Africa to own and operate its own solar plant.

Where is Cape Town building a solar power plant?

The city is currently building a 7 MW solar facility in Atlantis, about 40 km north of Cape Town, with plans to increase capacity to 10 MW in the future. The R200 million (\$11.3 million) project is being managed by the Lesedi Technoserve consortium, which is responsible for the engineering, procurement, and construction.

What is solar & storage live Cape Town?

REGISTER FOR FREE Solar & Storage Live Cape Town offers you a unique opportunity to connect with a large and exceptionally senior audience. It provides meeting spaces, networking opportunities as well as sponsorship/exhibition opportunities to meet your companies specific marketing and business development needs.

How can Cape Town encourage residential adoption of solar energy?

To encourage residential adoption of renewable energy, Cape Town has also launched an online solar authorisation portal to simplify the process of obtaining certificates for installing solar panels and battery systems in homes, reducing wait times and motivating more households to switch to solar power.

Cape Town Solar Energy Storage Power Station

Africa's Largest Battery Energy Storage Project Red Sands ...

Updated 1st July 2025 - The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, ...
