

Chad Folding Container Mobile Type for Airports

Overview

Can air cargo containers be folded and stacked when empty?

To create certified air cargo containers that can be folded and stacked when empty. Now you don't need to leave your ULDs halfway around the world because a return flight is too expensive. And you can take one step closer to zero-carbon flying. World's first inflatable solution for Unit Load Devices is still in development.

Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD?

You don't need any special tools to operate our collapsible containers.

Should you use a ULD if your container is empty?

Using ULDs that maximise volume when full and minimise dimensions when empty supports your environmental initiatives. Finding sufficient storage space in various locations around the world is a constant frustration for ULD fleet managers, particularly when containers are empty.
