

China-Europe Power Station Energy Storage Company

Overview

Where does Jiangsu Linyang energy plan to build energy storage facilities?

(Yicai) July 18 -- Jiangsu Linyang Energy is planning to build energy storage facilities overseas, with Southeast Asia, Europe and the Middle East identified as the Chinese smart energy company's three key regions for international growth. Of them, Europe is the priority market, the firm's vice chairman told Yicai in a recent interview.

Is Europe a priority market for energy storage?

Of them, Europe is the priority market, the firm's vice chairman told Yicai in a recent interview. "Europe has strong demand for energy storage due to its aging power grid and favorable storage policies," Lu Danqing said.

Will Linyang build a energy storage plant in Poland?

"We chose Poland as our key anchor in the European market, and are considering building an energy storage plant there." In the third quarter last year, Linyang set up a sales, technical support, solutions and after-sales service center for its energy storage business in Warsaw, Poland and already has a full team in place.

Where is Linyang energy storage located?

In the Middle East, Linyang has set up a joint venture energy storage factory with its strategic partner ECC. The facility includes the production of smart meters and energy storage systems. In Southeast Asia, Linyang has an energy storage operations center in Jakarta, Indonesia, with a full team already assembled, the company previously said.
