

China distribution switchgear in Singapore

Overview

Is the switchgear industry in Singapore safe?

When exploring the Switchgear industry in Singapore, several key considerations emerge. Regulatory compliance is paramount, as the country adheres to strict safety and performance standards set by the Energy Market Authority (EMA) and other governing bodies.

Who is matrix switchgear design?

MATRIX Switchgear Design Pte Ltd is incorporated in Singapore in Year 2001 by a skilled team with more than 30 years of experience in the manufacturing of Low Voltage Modular Switchgear, Standard Switchboards, Switch Panels, Sheet Metal Enclosures and Metal Parts Fabrications.

Where are switchgear products made?

The Company now has 3 fully-equipped plants in Singapore, as well as several offices and manufacturing facilities across overseas markets in Malaysia, Australia, Indonesia, and Thailand. These overseas subsidiaries specialise in the manufacture and assembly of switchgear to service the respective demands of their local markets.

What is a switchgear used for?

It includes in one unit two switches that can connect the load to either or both main conductors, and a fusible switch or circuit breaker and switch that feed a distribution transformer. This type of switchgear is used for medium-voltage power distribution, from 7.2kV to about 36kV volts.
