

Community Use of Sudanese Foldable Containers Scalable

Overview

Are foldable containers a solution to empty container repositioning?

The paper explores the potential of foldable containers as a solution for the costly issue of empty container repositioning in maritime logistics. Through qualitative research of 23 expert interviews, this study identified barriers like market incentives and operational concerns, while noting financial and environmental benefits as drivers.

Can foldable containers improve logistics management?

Capacity Improving Logistics Management Using Foldable/Collapsible Containers: A Case Study G 179 G constraints in ports for storing and repositioning empty standard containers are major concerns in the logistics and port industry. As an alternative, foldable containers have been introduced into the market.

Will foldable containers reduce the number of containers handled by Australia?

A simulation for the Port of Melbourne (Australia) demonstrates that using foldable containers would reduce the projected total number of containers handled by the port in 2035 from 7.057 million to 5.817 million, with an 80% decrease in the number of empty containers.

Why are foldable containers not widely used?

Foldable containers are not widely used due to some factors such as initial costs, safety issues (Boile et al., 2004) and the perceived costs of additional investments to improve port facilities and equipment to cater for foldable containers.

Community Use of Sudanese Foldable Containers Scalable

[Effects of using foldable containers in hinterland areas](#)

Dec 11, 2019 · In addition, the effects of using foldable containers have not been investigated fully at an operational level. In this study, we analyze the effects of using a restricted number of ...
