

Construction of the Sydney Smart Energy Storage Project in Australia

Overview

The \$75 million NSW Emerging Energy program provides grant funding to assist with the development of innovative, large-scale electricity and storage projects in NSW. By reducing barriers to invest in emerging.

Is Samsung planning a battery energy storage project in Australia?

The Australian renewable energy and storage arm of South Korean industrial conglomerate Samsung has submitted plans for another large-scale battery energy storage project to the federal government for environmental approval. Image: Samsung C&T Renewable Energy Australia.

Can long-duration storage projects be supported by the NSW electricity infrastructure roadmap?

Long-duration storage projects can bid for financial support under the new NSW Electricity Infrastructure Roadmap Tender 5 which is now open. This tender offers support for up to 1 gigawatt of projects, which can each release energy into the NSW grid for at least 8 hours.

What is the NSW emerging energy program?

The \$75 million NSW Emerging Energy program provides grant funding to assist with the development of innovative, large-scale electricity and storage projects in NSW. By reducing barriers to invest in emerging technologies, the Program supports affordable, reliable and clean energy across the State.

Why is NSW opening a new energy storage tender?

NSW has opened the largest energy storage tender in NSW history, seeking new long-duration storage projects to boost electricity reliability and keep the lights on in NSW. These projects will help ensure a steady and reliable supply of energy around the clock.
