The price developments of Container freight China to Southeast Asia are expressed in US\$ prices converted FX rates applicable at the time when the price was valid. Container freight China to Southeast Asia price index developments are calculated from multiple separate sources of data to ensure statistical accuracy.

Why is the container shipping route from China to Southeast Asia important?

The container shipping route from China to Southeast Asia is a well-traveled and vital trade route due to the close proximity of these regions and the significant volume of trade between them. Several routes and ports are commonly used for shipping containers from China to various destinations in Southeast Asia.

Which shipping companies ship from China to Southeast Asia?

The specific shipping lines and carriers that operate on this route can vary, but well-known international shipping companies like Maersk, COSCO, MSC, and others often provide container services between China and Southeast Asia.

Where do container ships leave China?

Container ships depart from major Chinese ports, including those in Shanghai, Shenzhen, Guangzhou, Qingdao, and others. These ports serve as the starting points for goods destined for Southeast Asia. After leaving Chinese ports, container ships typically sail through the South China Sea.
