

Costa Rica Bay solar container communication station Address

Overview

What is the port of Costa Rica?

The port of Costa Rica is the largest port in Americas. We manage, operate and develop the Moín port and industrial area and are responsible for ensuring safe and expedient shipping services. We are proud of our current port and are working hard with our partners to build the port of the future.

Does Costa Rica have a good port infrastructure?

The growth prospects of the Costa Rican economy, which ranks among the most stable and competitive in Latin America, underlined that the port infrastructure was inadequate to accommodate traffic growth expectations, larger classes of containerhips, and more stringent requirements in supply chain management.

How many reefer plugs does Costa Rica have?

To support this activity, the terminal has 3,800 reefer plugs, which is among the top 10 highest in the world. Costa Rica currently has 70% of the global market share for pineapples, with 82% of the US market.

What is TCM in Costa Rica?

TCM (Terminal de Contenedores de Moín) is the largest infrastructure project in Costa Rican history. It is meant to support Costa Rica's growing agricultural export industry as well as an active manufacturing sector. The first phase of the TCM project was completed in 2019.
