

Costa Rica Solar Container 15kW

Overview

Who is the target market for solar energy in Costa Rica?

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica, remains to be households or companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

Can a warehouse use solar energy in Costa Rica?

Solar energy has become an increasingly popular option for a variety of sectors, and warehouses are no exception. In Costa Rica, with its abundant solar radiation, this renewable energy source offers a number of benefits that can transform the way your facility operates.

How much solar power can Costa Rica use?

Utilising about 6% of total solar power potential and 25% of Costa Rica's wind power potential would suffice to supply enough energy to do so. Electricity costs can be reduced by almost US\$ 1 cent per kWh of power generation by deployment utility-scale and decentralised renewable energy installations.

How many solar systems are installed in Costa Rica?

ICE has installed 2,559 systems in homes, 649 systems installed for community activities, and 132 systems installed in conservation areas. There are three major solar parks in Costa Rica; Juanilama by Coopeguanacaste, Pocosol by Coopelesca, and Valle Escondido that will be built in 2021 by BMR Energy, contracted by ICE but not in use.
