Overview

Where can I buy supercapacitors & ultracapacitor?

The link could not be generated at this time. Please try again. Supercapacitors & Ultracapacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many supercapacitor and ultracapacitor manufacturers including Cornell Dubilier, Eaton, Elna, KEMET, KYOCERA AVX, Maxwell, Vishay & more.

Why do we need high-temperature supercapacitors?

The development of High-temperature supercapacitors (HTSc) has been motivated by the need for reliable energy storage systems capable of efficient operation under extreme thermal conditions, offering superior performance for critical industrial applications.

Are supercapacitors safe at high temperatures?

Supercapacitors (SCs) incorporating solid-state electrolytes, including (quasi)-solid-state electrolytes, are generally favored for operation at elevated temperatures due to safety considerations [1, 2]. These electrolytes mitigate risks associated with leakage, flammability, and corrosion.

What is the operating temperature of a supercapacitor?

The operating temperature of a supercapacitor can vary depending on the manufacturer and model. However, most supercapacitors are designed to function within a temperature range of $(-40 \text{ to } 85)^\circ\text{C}$ or $(-40 \text{ to } 185)^\circ\text{F}$. This temperature range is commonly referred to as the “standard” or “commercial” range.
