Since January 2000, the Danish Energy Agency has published a monthly electricity supply statistics. (Latest version: September 2025. Next version for October 2025 will be available 12 th of December 2025). Since January 2001, the Danish Energy Agency has published a monthly coal and coke supply statistics. (Latest version: September 2025).

Where can I find information about energy in Denmark?

On the Danish Energy Agency's website, you can find statistics and key figures on the subject of energy, e.g. energy prices.

Where can I find current electricity prices in Denmark?

Green Power Denmark shows current electricity prices as well as solar and wind's share of Danish energy production. The figures originate from Energinet's Energy Data Portal. At Drivkraft Danmark, you can find both current prices and the historic price trend from 1970 onwards for e.g. petrol, diesel fuel for motor vehicles and oil.

How does the price of energy affect energy prices in Denmark?

Macrobond. The prices of primary energy sources in Denmark are to a large extent determined by supply and demand in Europe, as the primary sources are traded across European national borders. Thus, the price of energy that is not produced in Denmark affects energy prices in Denmark.
