

# Does Rwanda have solar air conditioning

## Overview

---

Does Rwanda have solar energy?

With a potential of 4.5 kWh per m<sup>2</sup> per day and approximately 5 peak sun hours, solar energy has a huge potentiality in Rwanda. Currently, Rwanda's total on-grid installed solar energy is 12.230 MW originating. Methane Gas Resources is found in the Lake Kivu in the Eastern African Rift Zone.

How many solar home systems are there in Rwanda?

The market for Standalone solar systems is growing in Rwanda, and currently a total of approximately 50,000 solar home systems are known to have been installed in Rwanda for the last 3 years.

What is the Rwanda cooling initiative?

The Rwanda Cooling Initiative (R-COOL), funded by the Kigali Cooling Efficiency Program (K-CEP) and supported by the Rwanda Environment Management Authority (REMA), was launched in 2018 to showcase the benefits of a rapid and comprehensive transition to energy-efficient and climate-friendly cooling. The initiative has four main components:.

What is the market size of refrigeration & cooling in Rwanda?

The market assessment found that the current market size of refrigeration and cooling is worth approximately 35 billion Rwandan francs. The Rwanda Cooling Initiative, with Coolease as one of several financial mechanisms to be pursued, will be critical to channel such private capital towards superior cooling solutions.
