

# **Dublin energy storage boosts the grid**

## Overview

---

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

What is ESB's biggest battery storage plant in Ireland?

(EUR 1 = USD 1.078) Irish state-owned utility ESB on Wednesday opened a 75-MW/150-MWh battery energy storage plant, currently Ireland's largest, at its Poolbeg site in Dublin.

Is Ireland going in the right direction for energy storage?

"Ireland is going in the right direction as regards energy storage — we're good, but we could be a whole lot better," he explains. "Essentially, we have around 1 gigawatt on the island of Ireland today, and that has been quite a good success story in terms of building out batteries and what they can do in benefits to the electricity grid.

Does Ireland need more energy storage?

Ireland is going to need up to seven times more energy storage than its current capacity, say industry experts. John Daly reports Ireland is going in the right direction as regards energy storage — we're good, but we in terms of building out batteries, but we are going to need to go a lot further by 2030.

## Dublin energy storage boosts the grid
