

EMS Standards for Caracas Base Station Room

Overview

Should a fire and EMS Station serve as a model?

In each of these areas, the fire and EMS station should serve as the model for the community. As with any public or private facility, fire and emergency services stations are subject to theft, vandalism and violence. For staffed stations, these acts are most likely to occur when emergency response personnel are on a call.

Do EMS stations need a specific space?

Carve out specific spaces for specific uses Of course any EMS station needs adequate sleeping quarters, bathroom facilities and locker/changing rooms for both men and women – but consider what other activities happen at your station that you may not currently have a specific place for.

What are the requirements for a EMS Bay?

A specific need within this general need is to provide a bay capable of housing two apparatus and an EMS vehicle. As will be explained in later sections, there are several factors to be considered. The building committee or other responsible group must clearly define these needs and, where possible, quantify their requirements.

Are fire and EMS stations at risk of cancer?

As of the end of 2016, 36 states have enacted some form of cancer-presumptive legislation. Fire and EMS stations also contribute to infectious disease risks. Due to the nature of their work, fire and EMS personnel are at an increased risk of exposure to bloodborne and airborne pathogens.
