

Egypt solar Energy Storage Company

Overview

A powerful consortium, including Infinity Power and Hassan Allam Utilities Energy Platform, has partnered with Egypt's Ministry of Electricity and the Egyptian Electricity Transmission Company to develop a massive 1.2 GW solar power project, which will be paired with a substantial 720 MWh battery energy storage system (BESS). Does Scatec have a solar project in Egypt?

In a separate announcement, Norway's Scatec said it had signed a 25-year PPA with Egyptian Electricity Transmission Co. (EETC) for a 1 GW solar and 100 MW/200 MWh battery storage hybrid project in Egypt. "This will be the first hybrid solar and battery project in Egypt," said Scatec CEO Terje Pilskog.

Which solar projects are being built in Egypt?

The first project involves a 1 GW solar plant with a 600 MWh BESS in the Benban area. The second project is a 300 MWh BESS at the site of Amea Power's 500 MW Abydos solar array, which is currently under construction. Both projects are in Egypt's Aswan governorate.

Does AMEA power have a solar project in Egypt?

The latest announcements bring Amea Power's total renewables capacity in Egypt to 2 GW of solar and 900 MWh of BESS. The company claims to have projects in 20 countries, with a pipeline above 6 GW and 1.6 GW currently in operation and under or near construction.

Will Benban & Abydos be the largest solar-plus-Bess project in Africa?

Amea Power said the Benban site will be the largest solar-plus-BESS project in Africa, while the Abydos project will represent the first ever utility-scale BESS solution in Egypt. The company is investing \$800 million across both projects, which are expected to provide energy to more than 769,000 homes.
