

Energy Storage Projects in Ireland 2025

Overview

What is energy storage Ireland 2025?

At Energy Storage Ireland 2025, the message was clear: energy storage is central to a stable, low-carbon grid, and while short-duration battery systems (BESS) are available, long-duration storage (LDES) supply is in its infancy, however ESBN has a structure to enable LDES rollout in Ireland. The technology is advancing fast.

How good is Ireland's energy storage strategy?

Smith pointed out that Ireland's energy storage strategy, published in 2024, was "quite positive." A lot of high-level plans and a technology agnostic outlook. "Unfortunately, we haven't seen a lot of progress on those actions which is a problem we are trying to address," said Smith.

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.
