## Overview

---

Who makes 314ah energy storage cells?

CALB is the first company to mass-produce and deliver 314Ah energy storage cells in batches. The capacity of 314Ah is 12% higher than that of 280Ah. Not only does battery cell technology lead the industry, CALB's energy storage supporting solutions are also leading.

How many cycles a CALB 314ah battery cell has cycled?

CALB 314Ah energy storage battery cell has cycled 15,000+! The first mass production and delivery in the industry! On September 12, local time in the United States, RE+, the world's top energy solutions exhibition, officially opened.

Why is CALB launching a new 314ah battery cell in re+?

The person in charge of CALB's International Business Department said: "The debut of the new 314Ah battery cell in RE+ marks another important step for CALB in the field of electrochemical energy storage, and will play a greater role in the process of global carbon emission reduction and carbon neutrality. role.

What's new in China's 314ah battery?

CALB, China's new first-tier power battery company, released innovative 314Ah large-capacity, high-specific-energy, long-life energy storage cells and supporting solutions at the exhibition, and has begun batch delivery in September.
