

Energy storage container in western Germany

Overview

What is Germany's energy storage capacity?

Germany had 4,776MW of capacity in 2022 and this is expected to rise to 19,249MW by 2030. Listed below are the five largest energy storage projects by capacity in Germany, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a complete picture of the global energy storage segment.

What is eco Stor's new energy storage system?

The project is being developed and built by Eco Stor's subsidiary, Eco Power Three GmbH. "In Förderstedt, we're building an energy storage system that will deliver triple the capacity and power of what is currently Germany's largest battery in Bollingstedt, Schleswig-Holstein," said Eco Stor Managing Director Georg Gallmetzer.

Is Germany a good place to invest in energy storage?

While the demand for energy storage is growing across Europe, Germany remains the European lead target market and the first choice for companies seeking to enter this fast-developing industry. The country stands out as a unique market, development platform and export hub.

Is a new energy storage system coming to Förderstedt?

"In Förderstedt, we're building an energy storage system that will deliver triple the capacity and power of what is currently Germany's largest battery in Bollingstedt, Schleswig-Holstein," said Eco Stor Managing Director Georg Gallmetzer. That earlier system, also built by Eco Stor, has been active on the power exchange for several months.
